

PROGRESSIVES PLAN PROGRAM

And Amalgamate "Bloc"
in Congress To Carry
It Out

SEN. LA FOLLETTE
ONE OF LEADERS

"Drive Special Privilege
Out of Control of Gov-
ernment," Purpose

Washington, D. C., Dec. 2.—More than a hundred progressives from all parts of the country were here to-day to participate in open conference discussion of progressive legislative aims and purposes with the nearly two score senators and representatives, serving and elected, who met yesterday to formulate another unofficial "bloc" in Congress to further these aims during the present and the next Congress.

A morning session of the conference was called as in "open forum" for the exposition of progressive opinion, with speakers for the occasion including President Gompers of the American Federation of Labor; Governor Blaine of Wisconsin, and Senator LaFollette of Wisconsin, who with Representative Huddleston, Democrat, of Alabama, issued the call for the general conference as well as the preliminary congressional meeting of yesterday.

The general sessions, which are being held under the auspices of the people's legislative service, will close with a dinner to-night for which accommodations had been made for as many as 800. Speakers announced for the dinner included Samuel Untermyer, New York attorney, Senator LaFollette and former Senator Bristow of Kansas.

As a basis for the further exposition of progressive views, the participants in the sessions had before them the general program of subjects for liberal legislation adopted unanimously at the congressional meeting yesterday in which Republicans, Democrats and a Farmer-Laborite joined, with a general declaration of purpose "to drive special privilege out of control of government."

Buffalo, N. Y., Dec. 2.—Three new world records were made in a swimming meet in the Central Y. M. C. A. tank here last night. In the 110 yard event he erased a long mark of 1:02 1-2 held by Harry Heener by covering the distance in 1:00 1-5.

Miss Sybil Bauer of Chicago lowered her own record of 1:25 3-5 for the 100 metre backstroke to 1:24.

QUEBEC TOWN PARTLY BURNED

Terre Bonne Inhabitants
Were Thrown Into
Panic

400 HOMELESS:
CHURCH SAVED

Though Weather Was Cold,
Heat of Fire Drove Men
To Shirtsleeves

Terre Bonne, Que., Dec. 2.—Four hundred were homeless to-day as a result of a fire which last night wiped out the entire lower part of Terre Bonne, destroying more than 75 residences and store buildings, including the town hall and the post office. The convent of the Congregation of Notre Dame and Juvenat college conducted by the Father of the Very Holy Sacrament, escaped damage.

Scenes of wild confusion attended the first alarm. Householders rushed from their burning homes carrying whatever they could salvage. Women dragged sleighs along the streets into which were loaded the few articles rescued. The fathers of the Holy Sacrament saving the Blessed Sacrament carried about the smoke-filled streets while men, women and children knelt in prayer.

It was a spectacular fire, the light being clearly visible in Montreal. Citizens there for a time thought it was within Montreal's city limits. Although the night was cold, the blazing town became so hot that men went about in their shirt sleeves.

Are You the Man Who "Never Reads Advertisements?"

Some men, who are neither blind nor illiterate, claim sincerely that they "never read advertisements."

Yet, if you could investigate, in each case you would find that the man who "never reads advertisements" used an advertised tooth paste or shaving cream or soap. If he owns an automobile it will be an advertised car. If you ask his opinion of any automobile he will reply in words that might have been lifted bodily from an advertisement of that automobile.

Advertising has formed his opinions to a great degree. He

may have received his information through others who obtained their knowledge from advertising. But it is a fact that no man can escape the effects of advertising even if he does say he "never reads advertisements."

Not one of us ever reasoned out entirely from his own mind that the earth is round. If we had not read it or heard it we would never have known it.

In these days of good, truthful, helpful advertising to say "I never read advertisements" is merely your way of saying, "I don't read all advertisements."
